

KENJI MILLE GRAVA

SOFTWARE DEVELOPER

ABOUT ME

I'm an experienced Software Developer with 4-5 years of experience, specializing in web applications. My expertise includes React, TypeScript, JavaScript, and UI libraries. I focus on delivering pixel-perfect, responsive designs and have skills in optimizing performance, conducting testing, and collaborating within cross-functional teams.

EXPERIENCE

SOFTWARE DEVELOPER

Hivemind Inc.

November 2020 - Present

Web Developer

- Maintained and developed landing pages for various clients in Norway using React and Angular frameworks.
- Maintained and developed a comprehensive website for Dykkerteknikk, Noaya, utilizing React Next.js and Hygraph CMS, featuring company information, job listings, and services.
- Maintained and developed a multi-purpose website enabling vessel and rover tracking, live streaming, and real-time chat functionalities using React.
- Maintained and developed an e-commerce platform for Grappa, facilitating the sale of vinyl records online using React Next.js and integrating Stripe for payment processing.
